

The Wisconsin no-call list has been one of the best ideas for consumer protection, ever implemented. Please keep a tight rein on this. I used to get inundated with calls. They have now been kept to a minimum. A huge concern is the possibility of allowing cell phone numbers to be given out to telemarketers. I can't imagine the ramifications!!!!!!!!! Not only am I concerned with the calls from telemarketers, but also the hundreds of calls I received during the election. I was appalled. I work full time for the State of Wisconsin and carry 2 part-time jobs. When I am home, I want to enjoy peace and quiet with my family.
